

PEACEFUL PEDESTRIAN TRAINING SCHEDULE

This schedule is for beginner walkers who are without significant health concerns but do not regularly engage in fitness walking.

Training Goals:

- Walk for 30 minutes. If you are brand new to fitness walking, it may be easier to start walking 2x a day until you build up to 20 minutes/walk.
- You will begin to increase the time walking before working on speed or distance.
- The end goal of this training is to walk at a brisk pace three times a week.

**You DO NOT have to start at Week 1, Day 1.
Start at the week and time you can comfortably complete.**

- If you have a health condition, seek medical advice before starting.
- Start at a pace that is comfortable for you then increase to a brisk walk - (breathing hard BUT not breathless AND able to still carry on a conversation).
- The next step is to build up speed and distance working toward walking one mile, then walking a 5k, and finally running a 5K if you that is your goal.
